North Junior High Registration Instructions 2010-2011

Students will register with his/her counselor at school and make course requests during February and March. After they register at school, they will bring home their proposed schedule for you to sign and return to the counselor. During the week following registration, you will be able to make changes to the schedule as needed from home. However, *please note the dates of your child's registration window. Please make changes to your child's schedule ONLY during that time.* The Infinite Campus system will have electives and required classes pre-loaded based on your child's grade level during that window. If you make changes outside that given time frame, the courses you choose may not be offered at his/her grade level and will be changed accordingly.

1. Log in to Infinite Campus
